

# What is your top takeaway from Day 1?

Community engagement is critical

Need long-term integrated design and operational portfolio-level strategies

cross-functional teams/leaders with dedicated time to drive change are essential to making progress

Starting somewhere is important, and commitment is a key to sustainability

Seeing results is a long multi-stakeholder process: collaborate and stay the course

Leadership buy-in key

We need to look at partnerships - how we all can work together to achieve engagement with local communities.

change takes time; community is critical; will take all stakeholders working together to make change

there may be "templates" that emerge from many of these efforts that can serve as a launch board from which to customize programs specific to the community needs

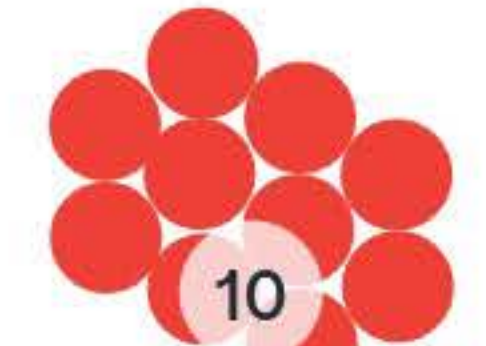

# What is your top takeaway from Day 1?

1) Importance of leadership and commitment from the organization leaders. 2) Long-term commitment to community engagement. 3) Leave the corporate environment and engage with community partners.

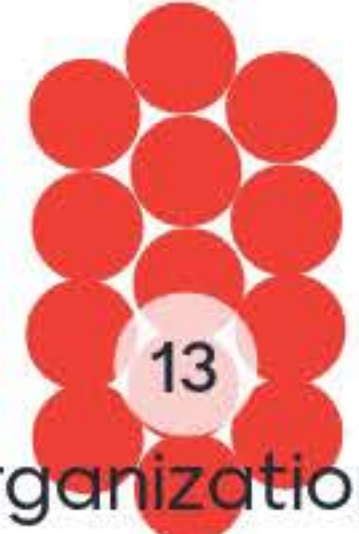

# What other factors of the maturity model should be included in future discussions?

# What additional resources would be helpful?
