

Month	Meeting/Event	Title	Presenter(s)
January	Duke Margolis Institute for Health Policy Seminar	<i>Reviewed trials in clinical practice work & suggested solutions for Overcoming the barriers to better evidence generation from clinical trials</i>	Treva Locke (formerly Duke-Margolis, Amgen), Lindsay Kehoe
	MGH Neurological Clinical Research Institute Managers Meeting	<i>Shared About CTTI at an internal meeting to expand awareness of resources and collaboration opportunities</i>	Morgan Hanger
February	SCOPE Summit	<i>Explored perceptions around Achieving Flexibility and Expanding Access while Preserving Data Quality</i>	Jimmy Bechtel (SCRS), Wes Burian (Patient), Lindsay Kehoe, and Pamela Ten-aerts (Medable)
	Grand Rounds - Frontiers Clinical and Translational Science Institute (CTSI)	<i>Provided overview of CTTI – Quality by Design to increase implementation amongst academic clinical researchers</i>	Kelly Franzetti
March	Clinical Leader Live	<i>Revisited CTTI research on The “One-and-Done” PI & Measuring the Current Site Landscape to create shared understanding on the issue today</i>	Jimmy Bechtel (SCRS), Elisa Cascade (Advarra), Ken Getz (Tufts CSDD), Morgan Hanger (CTTI), Paul Ivsin (Continuum Clinical), Dan Schell (Clinical Leader)
April	IncluDe Site Solutions Summit	<i>Highlighted necessity of Turning Trust into Action for creating community partnerships and driving change</i>	Maimah Karmo (Tigerlily Foundation), Sabrena Mervin-Blake, Perla Nunes (Duke University)
	TransCelerate BioPharma Webinar Series	<i>Joined panel advancing Representation by Design: Enhancing Clinical Trial Access Through Multi-Stakeholder Collaboration</i>	Ruma Bhagat (Genentech), Sabrena Mervin-Blake, Ubong Peters (Genentech), Carla Rodriguez-Watson (Reagan Udall Foundation)
May	Society for Clinical Trials' (SCT) 2025 Annual Meeting	<i>Presented Characteristics of Interventional Clinical Trials Started in 2023 Registered in ClinicalTrials.gov</i>	Becca Sullenger (Duke University)
	NeuroNext 2nd Annual Network-Linked Open Conference (NLOC)	<i>Offered CTTI: Approach to Master Protocol Design to support use for therapeutic development in Batten & other rare diseases</i>	Sara Bristol Calvert
June	DIA 2025 Global Annual Meeting	<i>Discussed Building Upon Quality by Design and Risk-Based Monitoring Implementation Momentum</i>	Gerrit Hamre (Duke-Margolis), Morgan Hanger, Sameera Ibrahim (BMS), Alissa Munn (FDA)
		<i>Considered Do Flexible Trial Approaches Impede Data Quality? Perception vs Reality how to move QbD forward now</i>	Cheryl Grandinetti (FDA), Catherine Gregor (Florence Healthcare), Lindsay Kehoe, Ken Wiley (NIH)
	Bioethics International, Ethics, Trust + Patient Centricity in Pharma: Metrics for Success	<i>Contributed CTTI research to discussion of Establishing a Global Industry Reporting Standard for Clinical Research Data: Public Health, Ethics, and Business Considerations in Response to Declaration of Helsinki Revisions</i>	Morgan Hanger
July	NIH Collaboratory Grand Rounds	<i>Advocated for strategies to strengthen, coordinate the evidence generation system following State of Clinical Trials presentation</i>	Sara Bristol Calvert, Karen Chiswell (Duke University), Adrian Hernandez (DCRI), Chris Lindsell (Duke University), Becca Sullenger (Duke University)
September	Special Roundtable at FNIH	<i>Conveyed CTTI's Measuring Trials Transformation: Metrics for Patient Engagement</i>	Josh Fessel (Formerly NIH, Independent)
	Oracle Health and Life Sciences Summit	<i>Discussed Accelerating Innovation in Drug Discovery and Development Using AI, Real-world Evidence, and Open Science in the context of CTTI's 2030 vision</i>	Chris Boone (Oracle), Morgan Hanger
	ASCO Quality Training Program	<i>Introduced CTTI's recommendations on Engaging Patient Groups in Clinical Research for research teams across US</i>	Morgan Hanger
October	Fierce Biotech Week	<i>Delivered a keynote address From Fragmentation to Transformation: Reimagining the Future of Clinical Trials</i>	Lindsay Kehoe
	Innovation Network Gathering	<i>Given the tools and trial design approaches at our disposal, we explored how to create A Trial Agenda for Population Health and Trust</i>	Morgan Hanger
	Research Revolution-Powered by Florence Healthcare	<i>Moderated a panel that jointly explored Maximizing Capacity: How Alternative Models and Technology Allow Teams to Do More</i>	Lora Black (Sanford Health), Rachana Kanvinde (ACRP), Lindsay Kehoe, Crystal Taylor (Translational Research in Oncology (TRIO) – US)
